

SUMMER ENGLISH CAMP 2019

What happens when you combine forty eager children, interactive four-hour English sessions, a few educators from the US, and an apartment flat turned make-shift school? Joy! Energy! Excitement! And lots of learning and new relationships.

In a partnership between Go Deeper Travel (godepertravel.com), our sponsoring company, and Global Partners for Education (gp4e.org), educators from America and India came together to provide top-notch English lessons to children ages five to fifteen. With the scorching 100°F plus heat outside and schools closed for summer vacation, English Camp provided a cool, fun alternative for under-resourced children.

Creative, interactive lessons stoked a new desire for learning in children who are used to rote memorization and recitation. Games, toys, songs, videos, visuals, and hands-on tools catalyzed the process of learning new English words and ways of speaking. Each day's session ended with a raucous rendition of "If you're happy and you know it clap your hands.." And oh how they clapped!

English is an indispensable skill in rapidly developing India. Speaking ability can greatly affect an individual's career potential. Through camps like these, we aim to continue investing in Mehrauli's children and youth by building the skills for a more prosperous future.
